Ms. Charishma Kondaka

9063972826 kondakacharishma249@gmail.com kondaka-charishma-377b25318

Career Objective

Motivated B.Tech Information Technology student graduating in 2027 with strong foundations in Python, Java, OOPS, DBMS, and AI/ML, along with knowledge of Cybersecurity and the ServiceNow platform, including ServiceNow Certified System Administrator certification. Experienced in building AI-powered and full-stack applications through hands-on projects and internships. Strong problem-solving and analytical skills with an interest in developing intelligent, secure, scalable, and maintainable software solutions.

Education Qualifications

GMR Institute of Technology, Rajam 2024-2027

Bachelor of Technology in information technology

CGPA: *9.12*

Govt Polytechnic for Women, Nellore 2020-2023

Diploma in Computer Engineering

CGPA: *8.45*

Internships

Datavalley India Pvt. Ltd., Visakhapatnam

(Jun 2025 – Jul 2025)

- Learned the fundamentals of Full Stack Development using Python.
- Gained basic knowledge of frontend and backend development concepts.
- Enhanced understanding of real-world software development practices.

Publications

Secure Web Vulnerability Scanner Using Metasploit Framework (2026)

- Developed a web-based vulnerability scanner to identify common website security issues. Implemented security checks for authentication, HTTPS usage, and insecure configurations.

Projects

Web Vulnerability Scanner

- Developed a full-stack web vulnerability scanner with secure user authentication and role-based access control.
- Implemented multiple security testing modules including default credential detection, security header validation, and directory exposure scanning.
- Generated detailed vulnerability reports with risk levels and recommended remediation steps to improve website security.

AI-Powered Digital Evidence Investigation Platform

- Developed an AI-powered digital forensics platform using Qwen 3, OCR, NLP, and metadata extraction to automate analysis of heterogeneous digital evidence.
- Implemented Hybrid RAG using BM25 + BGE dense retrieval to provide evidence-grounded answers and improve relevant evidence retrieval.
- Designed an Agentic AI investigation workflow with Knowledge Graphs for evidence correlation, timeline reconstruction, entity analysis, and automated forensic report generation.

Areas of Interest

- Software Development
- Python Development
- Full-Stack Development
- Database Management
- ServiceNow
- Cybersecurity

Skills

- **P**rogramming Languages: Python, C
- Core Computer Science: OOP, Data Structures & Algorithms, DBMS, Software Engineering, Problem Solving
- Web Development: HTML, CSS, JavaScript
- AI/ML: Large Language Models (LLMs), Generative AI, Prompt Engineering, AI Agents, Retrieval-Augmented Generation (RAG)
- AI Retrieval: Hybrid RAG, BM25, Dense Retrieval, BGE Embeddings, Semantic Search
- Database: MySQL
- ServiceNow: ServiceNow Platform, ServiceNow Certified System Administrator (CSA)
- Cybersecurity: Web Application Security, Network Security, Vulnerability Assessment, OWASP Top 10

Certifications

- Ethical Hacking Gateway
- Microsoft SOC
- ServiceNow Certified Administrator Developer(CAD)
- ServiceNow Certified System Administrator (CSA)
- Internship on Full Stack Development using Python

Positions of Responsibility

- Chairperson, ACMW Student Chapter, GMRIT

May 2026 - May 2027

Professional Traits

- Responsible and reliable
- Quick learner
- Adaptability
- Problem-solving skills
- Teamwork

Languages

- English
- Hindi
- Telugu
